CTE COURSES GRADED ON 5.0 SCALE

Students who complete State-Recognized Career and Technical Education (CTE) Courses can earn college credit through both local articulation and state-wide post-secondary credit agreements, equivalent to Advanced Placement (AP) and Dual Enrollment (DE) courses. Students in CTE programs are also required to complete state-approved certification and credentialing exams, which are equated to prior learning credit agreements at most colleges. Based on these post-secondary credit arrangements, the following Dearborn Public Schools Courses should be graded on a 5.0 scale.
